The operator may be fitted to either the **RIGHT** or **LEFT** hand side of the roller door.

Check that there is sufficient side clearance to fit the operator unit as below listed:

Door Type	Minimum side clearance

Ensure there is a properly earthed mains supply socket adjacent to where the operator is to be fitted.

If the operator is being fitted at the same time as the new door installation, read these instructions in conjunction with the door installation instructions.

If the operator is being retro-fitted, make sure the door operates smoothly and is properly balanced.
