

SWINGER is the residential swing gate arm motor for leafs up to 2m.

SWINGER operators are provided with built-in control board with integrated 433 MHz receiver. Possibility of 2 remotes with a single control board. Reliability and safety characterize this operator conformable with the European Norms EN12453 and EN12445 thanks to the presence of the encoder.

Kit Contains:

1 x Swinger Motor

2 x Remotes

1 x Pair of Photocells

1 x Antenna

Power	80W
Weight (kg)	12
90 Degree Opening Time	16s
Protection Level	IP44
Motor Voltage	24V DC
Working Temp	-20°C to +50°C
