HOW TO

HOW TO PROGRAM INTO THE OPENER

Roller Door Opener

1. Use a screwdriver to remove the faceplate.
2. With the power on, press and release the small button (learning button) located under the large aqua button. The yellow LED will come on, indicating that your unit is ready to accept a code.
3. Press the handset button once. The green LED will blink twice, indicating that it has been accepted.
4. Also code any other handsets at this stage.
5. Press and release the small button (learning button) and the yellow LED will turn off.

Overhead Door Opener

1. Push the radio set button, using a pointed object.
2. The courtesy light will stay on for 30 seconds.
3. During this period, press the button on your transmitter. The courtesy light will flash twice to indicate acceptance.

HOW TO ERASE MY TRANSMITTER CODES

Roller Door Opener

Turn power off then press and hold down the small button (learning button) while you turn the power on. The 3 LED's will flash twice.

Overhead Door Opener

Hold the radio set button for 5 seconds. The courtesy light will flash 7 times.

NOTE: This will erase all codes, you cannot erase just one code.
