
-High quality standard. The operators feature a robust body, galvanized motor and built-in encoder which ensures an increased operation performance.

-Energy saving. Minimum energy consumption, due to the built-in LED lamp, which is more durable and provides a longer service life.

-Long service life. Smooth start and stop feature, ensures a minimum load on system components.

Max door weight (kg)	220
Max door height (m)	3.8
Motor supply (V)	220-240V a.c.
Max Power Input (W)	300
Force (N)	1200
Working Temperature (Min/Max)	-20 + 55
Protection level (IP)	20
