
Slim version of the DEA DigPro keypad. Keypad with transponder reader (card or token). The metal numeric keys are backlit for a better use at night-time, and two LEDs make programming of cards and codes easier. The metal housing and the complete sealing of the electronic circuit make these systems fit for any outdoor installation. Ability to record more than 1000 proximity cards or tokens. Power supply 12-24V. Card and tags sold separately.

Dimensions (mm)	160 x 20 x 50
Protection	IP65
Frequency	125KHz
Material	Aluminium
