

Loctite Torque Marque - 50ml Tube

LOCTITE® SF 7414™ is a fast drying paste to be used in production to visually detect any movement in the adjustment of parts. LOCTITE® SF 7414™ has been developed for use on compression fittings, studs, nuts, parts and assemblies after they have been set to proper tension or position. Service personnel or inspectors can quickly spot any changes or tampering with equipment. It has excellent adhesion to metals, including aluminum, magnesium, titanium, stainless steel and copper, and is non-corrosive to these metals. This product should be typically applied in temperatures from 15 to 25 °C, higher temperatures will reduce the drying time. Operating temperatures range from -35 to +145 °C.
