Safetech Short Magnetic Vertical Gate Latch (Keyed)

Safetech is a market-leading gate fence hardware manufacturer specialising in high-quality innovative product lines, designed to save you time while providing your customers with hardware that performs for life.

Safety is Our Priority

When installing a gate the latch is one of the most important parts, because ultimately the latch keeps the gate closed when it's meant to be closed. While this may sound simple, but it's one of the most important features. A good latch can be the difference between a child or a pet getting out of the gate and on to a busy road or a burglar being discouraged. The Safetech pedestrian gate latch has been designed with these issues in mind and is key-lockable and as secure as they come.

Tough Materials & Tough Components

Constructed from durable materials, the SL-25 is one of the most hard-wearing pedestrian gate latches on the market, with less individual components compared to competitor's it has less that can go wrong. Made from glass reinforced polymers, e-coated aluminium & rust-resistant steel means the latch is built to last. Being UV-stabilized means the harsh Australian conditions will take much longer to fade colours than others on the market. The high level of reliability and our limited lifetime warranty will give you peace of mind that if something does go wrong it's easily resolved with no hassle.

Versatile Design for Easy Installation

The Safetech pedestrian gate latch has several key features that make it easy to install. It is easily adjustable both horizontally and vertically and additionally can easily be swapped from a right to left-side mounting without using any screws because of its unique sliding back-plate design.
